

INTRODUCING THE NEW RELEASE...

ARCTIC STAR

Montracon

**Southern Cross Transport Equipment Group
has teamed up with British company
Montracon Ltd introducing a new
series of Refrigerated Transport
Equipment in Australia**

Manufactured in the United Kingdom, the new series has been designed in co-operation with Southern Cross's local engineering team to meet the requirements of the Australian Market and Specific Australian Design Rules. Customers will still have the flexibility to specify their preferred Air Suspension / Axles or Refrigeration Unit Combination. The Arctic Star - Montracon has full ADR Compliance & Supported Australia Wide by Southern Cross Vans.

The new

Montracon

Series

- Full Freezer (-28°C) Specification
- Full Length Main Rail Chassis c/w full width skid plate included as standard equipment
- Full Stainless Steel Rear Frame / Rear Door Hardware included as standard fitment
- B-Double Compliant
- Southern Cross 'Double Loader System'
- EBS Brake System (ADR38) included as standard fitment
- Full width Rear Dock Compression Member included as standard fitment
- Side Intrusion Under run Protection included as standard fitment
- Optional Fitment of Full Aerodynamic Side Skirting

The new Montracon Series will compliment Southern Cross's existing 'Arctic Star Refrigerated Product Range'
